

CERTIFICATE OF CONFORMITY WITH IFRA STANDARDS

51st Amendment to the IFRA Code of Practice (published June 2023)

This certificate assesses the conformity of the fragrance mixture with IFRA Standards and provides restrictions for its use as necessary. It is based only on those materials subject to IFRA Standards for the toxicity endpoints described in each Standard. It does therefore not replace a comprehensive safety assessment of the fragrance mixture.

CERTIFICATE DELIVERED TO

Company name	Vegteam, Lda.
Company address	R. Quinta de Santa Marta, Lojas EF, 1495-171 Algés, Portugal
Contact	Ivone Mesquita
E-mail	info@ecocandleproject.com
Phone	+351 911 749 753

SCOPE OF THE CERTIFICATE

Product	FROSTED LYCHEE & FREESIA
Issue date	03/10/2026
Basis	Manufacturer's IFRA / EU Certificate of Conformity, 51st Amendment (issued 28/08/2025)

COMPULSORY INFORMATION

We certify that the above mixture is in compliance with the Standards of the INTERNATIONAL FRAGRANCE ASSOCIATION (IFRA), up to and including the 51st Amendment to the IFRA Code of Practice (published June 2023), provided it is used in the following categories at a maximum concentration level of:

IFRA Category	Product type	Maximum level of use (%)
IFRA Category 1	Products applied to the lips	Not permitted (0.00%)
IFRA Category 2	Products applied to the axillae	1.76%
IFRA Category 3	Products applied to the face/body using fingertips	2.00%
IFRA Category 4	Products related to fine fragrance	33.02%
IFRA Category 5A	Body lotion products applied to the body using the hands (palms), primarily leave-on	3.00%
IFRA Category 5B	Face moisturizer products applied to the face using the hands (palms), primarily leave-on	2.50%
IFRA Category 5C	Hand cream products applied to the hands using the hands (palms), primarily leave-on	2.50%
IFRA Category 5D	Baby creams, baby oils and baby talc	0.85%
IFRA Category 6	Products with oral and lip exposure	Not permitted (0.00%)
IFRA Category 7A	Rinse-off products applied to the hair with some hand contact	2.00%
IFRA Category 7B	Leave-on products applied to the hair with some hand contact	2.00%
IFRA Category 8	Products with significant anogenital exposure	0.85%
IFRA Category 9	Products with body and hand exposure, primarily rinse-off	5.00%
IFRA Category 10A	Household care products with mostly hand contact — incl. reed diffusers, pot-pourri, liquid refills (non-cartridge)	5.00%
IFRA Category 10B	Household care products incl. aerosol/spray products — incl. room sprays	31.50%
IFRA Category 11A	Intended skin contact, minimal transfer from inert substrate, without UV exposure	0.85%

IFRA Category	Product type	Maximum level of use (%)
IFRA Category 11B	Intended skin contact, minimal transfer from inert substrate, with potential UV exposure	0.85%
IFRA Category 12	Products not intended for direct skin contact — incl. candles of all types, wax melts, plug-ins, cartridge refills	No restriction

Key uses for Eco Candle Project customers: Candles and wax melts (Cat. 12) — no restriction. Reed diffusers (Cat. 10A) — maximum 5.00% of fragrance in the finished diffuser. Room sprays (Cat. 10B) — maximum 31.50%. Not for cosmetic or skin products.

These limits may not be valid if the fragrance is used in conjunction with other materials that also contain the restricted substances; the total concentration of all restricted substances in the final product must be taken into account. Peroxide levels comply with IFRA and EU requirements. Substances with potential to form nitrosamines: none.

IFRA compliance was assessed according to IFRA Standards and IFRA Section 6 for general safety assessment. The IFRA Standards are based on safety assessments by the Panel of Experts of the Research Institute for Fragrance Materials (RIFM), are set per product category and combine the QRA2, phototoxicity and systemic toxicity assessments. The target of the RIFM safety assessments is humans and their safety while handling the finished consumer products.

For other applications or higher concentration levels, a new safety evaluation may be needed. It is the ultimate responsibility of the customer to ensure the safety of the final product, by further testing if need be. This certificate is generated by calculation based on data for ingredients supplied by the manufacturer.

EU COSMETICS REGULATION (EC) No 1223/2009

This fragrance contains butylphenyl methylpropional (Annex II, prohibited in cosmetics). It is NOT permitted in any cosmetic product (fine fragrance, leave-on, rinse-off, oral, etc.). According to the manufacturer, use in non-skin-contact products is permitted up to 15.00%; for candles the IFRA Category 12 applies (no restriction).
