

PROVISIONAL IFRA STATEMENT — DERIVED LIMITS

51st Amendment to the IFRA Code of Practice (published June 2023)

PROVISIONAL — DERIVED LIMITS. The manufacturer has not yet issued an IFRA certificate for the pure fragrance. The limits below are derived by Eco Candle Project from the manufacturer's IFRA 51st Amendment certificates for its 5%, 10% and 25% dilutions of this fragrance (16/01/2026): limit for the pure fragrance = certified limit of the dilution × dilution. Where a dilution is certified without restriction, only the dilution level itself is proven, so the value shown is a **guaranteed minimum ($\geq$)**, not a maximum. This statement is not a manufacturer's certificate and will be replaced as soon as the manufacturer's certificate for the pure fragrance is received.

This statement indicates the maximum levels of use of the fragrance mixture that are supported by the manufacturer's IFRA certificates. It is based only on those materials subject to IFRA Standards for the toxicity endpoints described in each Standard and does not replace a comprehensive safety assessment of the fragrance mixture.

STATEMENT ISSUED BY

Company name	Vegteam, Lda.
Company address	R. Quinta de Santa Marta, Lojas EF, 1495-171 Algés, Portugal
Contact	Ivone Mesquita
E-mail	info@ecocandleproject.com
Phone	+351 911 749 753

SCOPE OF THE STATEMENT

Product	WEDDING DAY
Issue date	23/10/2026
Base	Manufacturer's IFRA 51st Amendment certificates for its 5%, 10% and 25% dilutions of this fragrance (16/01/2026) — limits derived for the pure fragrance by Eco Candle Project

COMPULSORY INFORMATION

On the basis of the manufacturer's certificates referred to above, the pure fragrance complies with the Standards of the INTERNATIONAL FRAGRANCE ASSOCIATION (IFRA), up to and including the 51st Amendment to the IFRA Code of Practice (published June 2023), when used in the following categories at no more than the levels below (values marked $\geq$ are proven minimums; higher levels may be permitted once the manufacturer's certificate for the pure fragrance is available):

IFRA Category	Product type	Maximum level of use (%)
IFRA Category 1	Products applied to the lips	3.85%
IFRA Category 2	Products applied to the axillae	1.15%
IFRA Category 3	Products applied to the face/body using fingertips	7.60%
IFRA Category 4	Products related to fine fragrance	21.50%
IFRA Category 5A	Body lotion products applied to the body using the hands (palms), primarily leave-on	5.50%
IFRA Category 5B	Face moisturizer products applied to the face using the hands (palms), primarily leave-on	5.50%
IFRA Category 5C	Hand cream products applied to the hands using the hands (palms), primarily leave-on	5.50%
IFRA Category 5D	Baby creams, baby oils and baby talc	5.00%
IFRA Category 6	Products with oral and lip exposure	4.57%
IFRA Category 7A	Rinse-off products applied to the hair with some hand contact	15.20%

IFRA Category	Product type	Maximum level of use (%)
IFRA Category 7B	Leave-on products applied to the hair with some hand contact	15.20%
IFRA Category 8	Products with significant anogenital exposure	2.25%
IFRA Category 9	Products with body and hand exposure, primarily rinse-off	≥ 25.00% (minimum proven)
IFRA Category 10A	Household care products with mostly hand contact — incl. reed diffusers, pot-pourri, liquid refills (non-cartridge)	≥ 25.00% (minimum proven)
IFRA Category 10B	Household care products incl. aerosol/spray products — incl. room sprays	≥ 25.00% (minimum proven)
IFRA Category 11A	Intended skin contact, minimal transfer from inert substrate, without UV exposure	5.00%
IFRA Category 11B	Intended skin contact, minimal transfer from inert substrate, with potential UV exposure	5.00%
IFRA Category 12	Products not intended for direct skin contact — incl. candles of all types, wax melts, plug-ins, cartridge refills	≥ 25.00% (minimum proven)

Key uses for Eco Candle Project customers: Candles and wax melts (Cat. 12) — at least **25.00%** (minimum proven). Reed diffusers (Cat. 10A) — up to **25.00%** fragrance in the finished diffuser is proven compliant (higher levels pending the manufacturer's certificate). Room sprays (Cat. 10B) — up to 25.00% proven compliant. Fine fragrance (Cat. 4) — maximum 21.50%.

IFRA-RESTRICTED MATERIALS PRESENT

The manufacturer's certificates do not disclose the individual IFRA-restricted materials or their concentrations. The levels of use above are derived from the levels certified by the manufacturer for its dilutions of this fragrance.

These limits may not be valid if the fragrance is used together with other materials containing the same restricted substances; the total concentration in the final product must be considered. For other applications or higher levels, a new safety evaluation may be needed. It is the ultimate responsibility of the customer to ensure the safety of the final product. This is a provisional statement prepared by Eco Candle Project; it is not a manufacturer's certificate and will be replaced by the manufacturer's IFRA certificate for the pure fragrance as soon as it is received.
