

CERTIFICATE OF CONFORMITY WITH IFRA STANDARDS

This Certificate assesses the conformity of the fragrance mixture with IFRA Standards and provides restrictions for use as necessary. It is based only on those materials subject to IFRA Standards for the toxicity endpoints described in each Standard. This Certificate does therefore not replace a comprehensive safety assessment of the fragrance mixture.

CERTIFICATE DELIVERED TO:

Company name: Vegteam, Lda (Eco Candle Project)
Company address: Rua Quinta de Santa Marta nº 4 Loja EF, 1495-171 Algés - Portugal
Contact: Ivone Mesquita
E-mail address: info@ecocandleproject.com
Company phone: +351 911 749 753

SCOPE OF THE CERTIFICATE:

NORDIC FIR

COMPULSORY INFORMATION:

We certify that the above mixture is in compliance with the Standards of the INTERNATIONAL FRAGRANCE ASSOCIATION (IFRA), up to and including the 51st Amendment to the IFRA Code of Practice (published June 2023), provided it is used in the following categories at a maximum concentration level of:

IFRA Categories [see Annex 1 below for details]	Maximum level of use of the pure fragrance (%)
IFRA Category 1	6.00%
IFRA Category 2	1.77%
IFRA Category 3	2.41%
IFRA Category 4	32.50%
IFRA Category 5A	7.18%
IFRA Category 5B	2.41%
IFRA Category 5C	1.20%
IFRA Category 5D	0.40%
IFRA Category 6	7.18%
IFRA Category 7A	18.14%
IFRA Category 7B	18.14%
IFRA Category 8	0.40%
IFRA Category 9	9.82%
IFRA Category 10A	9.82%
IFRA Category 10B	16.63%
IFRA Category 11A	0.40%
IFRA Category 11B	0.40%
IFRA Category 12	100.00%

Limits taken from the manufacturer's IFRA conformity certificate for the pure fragrance (NIGHT FIR FN0006401, 51st Amendment, issued 05/10/2026).

IFRA compliance above was assessed according to IFRA Standards and to IFRA Section 6 for general safety assessment.

**MAXIMUM USE LEVELS OF THE READY-TO-USE PREPARATIONS (% of the preparation):**

IFRA Category	Preparation at 25%	Preparation at 10%	Preparation at 5%
1	24.00%	60.00%	100.00%
2	7.08%	17.70%	35.40%
3	9.64%	24.10%	48.20%
4	100.00%	100.00%	100.00%
5A	28.72%	71.80%	100.00%
5B	9.64%	24.10%	48.20%
5C	4.80%	12.00%	24.00%
5D	1.60%	4.00%	8.00%
6	28.72%	71.80%	100.00%
7A	72.56%	100.00%	100.00%
7B	72.56%	100.00%	100.00%
8	1.60%	4.00%	8.00%
9	39.28%	98.20%	100.00%
10A	39.28%	98.20%	100.00%
10B	66.52%	100.00%	100.00%
11A	1.60%	4.00%	8.00%
11B	1.60%	4.00%	8.00%
12	100.00%	100.00%	100.00%

Calculated from the limits for the pure fragrance: limit of the preparation = pure-fragrance limit ÷ fragrance content (capped at 100%).

APPLICATION AT ECO CANDLE PROJECT DOSAGES:

Application	Dosage	IFRA limit	Result
Candles, wax melts (Cat. 12)	10%	100.00%	Complies
Room / linen spray — manual pump (Cat. 10B)	5%	16.63%	Complies
Reed diffuser (Cat. 10A)	≤ 9.82%	9.82%	Complies
Reed diffuser (Cat. 10A)	25%	9.82%	Does NOT comply
Pillow spray (Cat. 11B)	5%	0.40%	Does NOT comply

Note: reed diffusers (Category 10A) are limited to 9.82% of pure fragrance — a 25% diffuser does NOT comply; use ≤ 9.82% (the 25% preparation may be used at max. 39.28% of the diffuser liquid). Category 11B covers pillow sprays (max. 0.40%). Room sprays not applied to bedding are Category 10B (max. 16.63%).

The IFRA Standards are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee.

IFRA Standards are set per product category, each covering a range of product types which can be grouped together based on risk-assessment considerations. Groupings have been derived with the approach of combining QRA2, phototoxicity and systemic toxicity.

The target of the RIFM Safety Assessments is humans and their safety while handling the finished consumer products. For product categories such as pet products, the categorisation only relates to human exposure during application; the safety of such finished products with regard to animals is outside the scope of IFRA/RIFM and is the responsibility of the manufacturer of the finished product.

For other kinds of application or use at higher concentration levels, a new safety evaluation may be needed. It is the ultimate responsibility of the customer to ensure the safety of the final product by further testing if need be.

This certificate reproduces the limits of the manufacturer's IFRA conformity certificate (51st Amendment) for the pure fragrance, issued on 05/10/2026; the limits for the preparations are calculated from it. The information is, to the best of the manufacturer's knowledge, true and accurate at the time it is given. It is provided for information and internal use; it is the customer's

responsibility to perform its own evaluations for end-use applications. Any customer product, marketing or other claims are the customer's sole responsibility.

Regulatory Affairs & Product Safety — Eco Candle Project

ANNEX 1

Below is an extract of information provided by IFRA in relation to types of application present in each IFRA Category. Additional information can be found in the Guidance to IFRA Standards (ifrafragrance.org).

IFRA Category	Product type
IFRA Category 1	Products applied to the lips: lip products e.g. lipstick, lip balm; children's toys
IFRA Category 2	Products applied to the axillae: deodorant and antiperspirant products of all types; body sprays/mists
IFRA Category 3	Products applied to the face/body using fingertips: eye products, facial make-up, make-up remover, nose pore strips, wipes for face, neck, hands, body; facial masks; body and face paint
IFRA Category 4	Products related to fine fragrance: hydroalcoholic and non-hydroalcoholic fine fragrance of all types (Eau de Toilette, Parfum, Cologne, solid perfume, fragrancing cream, aftershaves); ingredients of perfume kits; scent pads; scent strips
IFRA Category 5A	Body lotion products applied using the hands (palms), primarily leave-on: body creams, oils, lotions; foot care products; insect repellent for skin; powders and talc (excluding baby)
IFRA Category 5B	Face moisturiser products applied using the hands (palms), primarily leave-on: facial toner; facial moisturisers and creams
IFRA Category 5C	Hand cream products, primarily leave-on: hand cream; nail care products including cuticle creams; hand sanitisers
IFRA Category 5D	Baby creams, baby oils and baby talc
IFRA Category 6	Products with oral and lip exposure: toothpaste; mouthwash, including breath sprays; toothpowder, strips, mouthwash tablets
IFRA Category 7A	Rinse-off products applied to the hair with some hand contact: hair permanent or other chemical treatments (rinse-off), including rinse-off hair dyes
IFRA Category 7B	Leave-on products applied to the hair with some hand contact: hair sprays of all types; styling aids (mousse, leave-on conditioners); leave-on hair dyes; dry shampoo; hair deodoriser/perfume
IFRA Category 8	Products with significant anogenital exposure: intimate wipes; tampons; baby wipes; toilet paper (wet)
IFRA Category 9	Products with body and hand exposure, primarily rinse-off: bar soap; liquid soap; shampoo; rinse-off conditioner; body washes and shower gels; bath gels, foams, salts, oils, bath bombs; face cleanser (rinse-off); shaving creams; depilatories and waxes
IFRA Category 10A	Household care excluding aerosol/spray products: laundry and dishwashing detergents; fabric softeners; hard-surface cleaners; floor wax; fragranced oil for lamp ring, reed diffusers, pot-pourri, liquid refills for air fresheners (non-cartridge systems)
IFRA Category 10B	Household aerosol/spray products: animal sprays; air freshener sprays, manual, including aerosol and pump; aerosol/spray insecticides
IFRA Category 11A	Intended skin contact, minimal transfer from inert substrate, without UV exposure: feminine hygiene pads and liners; diapers; incontinence products; toilet paper (dry)
IFRA Category 11B	Intended skin contact, minimal transfer from inert substrate, with potential UV exposure: tights with moisturisers; scented socks, gloves; facial tissues; napkins; paper towels; wheat bags; facial masks (paper/protective); solid fertilisers
IFRA Category 12	Products not intended for direct skin contact: candles of all types (including encased); laundry detergents for machine wash with minimal skin contact (pods); automated air fresheners of all types (plug-ins, electrical, closed systems, solid substrate, incense, liquid refills in cartridges); cat litter; deodorisers not intended for skin contact; fuels; joss/incense sticks; machine dishwash products; paints; plastic articles (excluding toys); scent beads; shoe polishes; toilet rim blocks
