SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Result	The mixture does not meet the criteria for classification under Regulation (EC) No 1272/2008 (EUH208 applies).
--------	--

Classification calculated by Eco Candle Project with the CLP calculation method (Regulation (EC) No 1272/2008). The manufacturer declares component concentrations as ranges; the exact values of the manufacturer's allergen declaration were used (vanillin 1.2%, coumarin 0.4%). The pure fragrance does not meet the criteria for classification, which reproduces the manufacturer's classification. Coumarin (Skin Sens. 1) is present at 0.4%, above one tenth of the 1% generic limit, so the label carries EUH208. The 5% and 10% preparations are not classified and require no EUH208 (coumarin $\leq$ 0.04%), consistent with the manufacturer's SDS for the 10% dilution. The 25% preparation in Augeo Clean Multi is classified Eye Irrit. 2 — H319 (from the base) with EUH208 (coumarin 0.10%), consistent with the manufacturer's SDS for the 25% dilution in Augeo.

2.2 Label elements

Hazard pictograms	None
Signal word	None
Hazard statements	None
Supplemental information	EUH208 Contains Coumarin. May produce an allergic reaction.
Precautionary statements	P501 Dispose of contents/container in accordance with local regulations.
Finished product	Candles: also apply the safety labelling of EN 15494. When supplied to consumers add P101/P102 and the name, address and telephone of the supplier.

2.3 Other hazards

The mixture contains no Substances of Very High Concern (SVHC) $\geq 0.1\%$, no PBT/vPvB substances (REACH Annex XIII) and no substances with endocrine-disrupting properties $\geq 0.1\%$ (Delegated Regulation (EU) 2017/2100 / Regulation (EU) 2018/605).

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Mixture of fragrance substances. Hazardous components (and substances with a workplace exposure limit) as declared by the manufacturer:

SECTION 4: First aid measures

Eye contact	Rinse cautiously with water for at least 15 minutes, holding eyelids open. Remove contact lenses if easy to do. If eye irritation persists, seek medical advice.
Skin contact	Remove contaminated clothing. Wash skin with plenty of soap and water. If skin irritation or rash occurs, seek medical advice.
Inhalation	Move the person to fresh air and keep at rest. If symptoms persist, seek medical advice.
Ingestion	Rinse mouth. Do NOT induce vomiting. Contact the Poison Centre (CIAV 800 250 250) or a doctor.
Most important symptoms	May produce an allergic reaction in sensitised persons.
Medical attention	Treat symptomatically.

SECTION 5: Firefighting measures

Suitable extinguishing media	Foam, dry chemical powder, carbon dioxide (CO ₂).
Unsuitable extinguishing media	Water jet.
Special hazards	Combustion may release smoke, CO and CO ₂ . Prevent run-off from entering drains or watercourses.
Advice for firefighters	Self-contained breathing apparatus and full protective clothing.

SECTION 6: Accidental release measures

Personal precautions	Wear gloves and eye protection. Ensure ventilation. Remove ignition sources.
Environmental precautions	Prevent entry into drains, watercourses or soil.
Containment and cleaning up	Absorb with inert material (sand, diatomaceous earth, universal binder) and place in closed containers for disposal.

SECTION 7: Handling and storage

7.1 Safe handling	Avoid contact with skin and eyes; do not breathe vapours. Keep away from heat, ignition sources and naked flames. Do not eat, drink or smoke in the work area. Wash hands after handling.
7.2 Storage	Keep container tightly closed in a cool, dry, well-ventilated place (10–25 °C), protected from light, heat and ignition sources. Keep out of reach of children.
