SECTION 16: Other information

Revision	Version 1.0 — Eco Candle Project edition, 22/10/2026. Based on the manufacturer's SDS for the pure fragrance (version 1 of 17/01/2025, issued 17/01/2025), allergen declaration and IFRA 51st Amendment certificate (17/01/2025). The manufacturer's SDS for the pure fragrance lists the hazardous components without concentrations. Concentrations were derived by Eco Candle Project from the manufacturer's SDSs for the 5%, 10% and 25% dilutions (declared range × 100 / dilution, intersecting the three) and from the manufacturer's allergen declaration where available (acetyl cedrene 5.0%, Virginia cedarwood oil 0.7%, Atlas cedarwood oil 0.6%, linalyl acetate, coumarin, citronellol, orange oil); the midpoint of the derived range was used otherwise. With these values the calculation reproduces the manufacturer's classification of the pure fragrance (H317, H411) and of the 5%, 10% and 25% preparations.
Abbreviations	ATE = Acute Toxicity Estimate; UFI = Unique Formula Identifier; PCN = Poison Centre Notification; SCL = specific concentration limit; SVHC = Substance of Very High Concern.
