This product is a natural essential oil (cornmint oil, *Mentha arvensis*, CAS 90063-97-1 / 68917-18-0, EC 290-058-5 — a UVCB substance). Section 3 lists its main constituents as declared by the manufacturer (concentration ranges). Classification as stated by the manufacturer for the oil (H302, H315, H317, H319, H411) and confirmed by Eco Candle Project with the CLP calculation method using the upper limit of each constituent range (oral ATE 1,200 mg/kg as stated by the manufacturer). The calculation would also give Asp. Tox. 1 — H304 (limonene and pinenes up to 15%); this is not applied, following the manufacturer's assessment that the criteria for aspiration hazard are not met. The 5%, 10% and 25% classifications were calculated by Eco Candle Project with the CLP calculation method.
